

How can we clearly define a vision

to make buildings more sustainable?

**We're helping building owners define
their challenges and clarify their
vision through (online) workshops!**

Though drawing, brainstorming, and creativity!

**In just 2 hours, we get a clearer
vision for sustainability solutions
that would work for their building.**

1. Company

2. The Challenge

3. The Vision

4. High-Priority Ideas:

5. The Strategy

6. We Learned

7. Next Steps

**Last week, we helped a hotelier clarify
their vision through an online workshop.**

“We loved the workshop! It triggers your creativity and helps you look at sustainability from all different angles. It helped us a lot by defining clear goals and vision to move forward with, in also a very sustainable way.” – **LL**

**Interested in a free workshop to
define your sustainability challenges?**
